

Fort Bragg Combat Training Center

M-4 Assault Rifle

Battle-Sight Zero & 25 Meter ALT-C Qualification Program

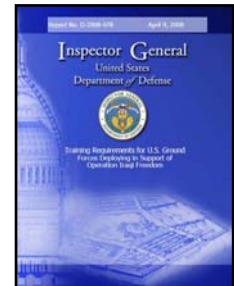

Every Warfighter must zero and qualify with his or her personal protection weapon before deploying to combat.

According to Department of Defense Directive 1322.18, *Military Training* (September 3, 2004): “*Combatant Commanders are responsible for giving authoritative direction to subordinate commands and forces, while coordinating and approving the pre-deployment training necessary to carryout missions assigned to the command.*”

The Directive also requires that training resemble the conditions of actual operations and be responsive to the needs of the Combatant Commanders.

A 2008 DOD Inspector General Report found that: “*The Services currently provides Units with challenging, real-life training scenarios and as a result, the Services created realistic, theater-inspired training for Units deploying in support of Operation Iraqi Freedom and Operation Enduring Freedom.*”

However, most Unit Commanders also know how difficult it can be sometimes to organize this vital pre-mission training. Coordinating annual leave cycles, schools, promotion boards, required maintenance, Change-of-Commands, and required pre-mission training is very time consuming and complex. A military base’s live-fire ranges are extremely busy and booked out for long periods of time. Unfortunately, ranges on Base are not always available when it would be most convenient to the Unit.

Soldiers need a live-fire range, ammunition, and training support that are available when they need it!

Gryphon's **M-4 Assault Rifle Battle-Sight Zero & 25 Meter ALT-C Qualification Program** is designed to provide Fort Bragg Unit Commanders with a convenient, safe, professional environment for their War-fighters to Zero their M-4 Assault Rifles and then qualify on the Army sanctioned 25 Meter ALT-C Basic Rifle Marksmanship Course.

Over the last decade, Gryphon Group has trained thousands of Warfighters from the Army, Marine Corps, Navy, & Air Force as well as 12 Federal Agencies in mission-specific weapons training.

Gryphon Group has some of the most effective weapons instructors in the industry. As of 2010, Gryphon has not experienced a career-ending injury or death after training over 17,000 American War-fighters in high-risk advanced weapons training. We have not even suffered an accidental discharge on our live-fire ranges after firing over 3,000,000 rounds. Gryphon's safety record is second-to-none.

The **M-4 Assault Rifle Battle-Sight Zero & 25 Meter ALT-C Qualification Program** is offered at Gryphon's new Fort Bragg Combat Training Center located on the Laurinburg-Maxton Airport just 20 minutes South-West of Fort Bragg North Carolina.

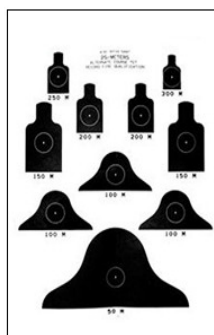

Now, Unit Commanders at Fort Bragg can get their Warfighters this vital pre-deployment training without the normal uncertainty and time intensive procedures in a short highly effective format for a very low cost just 20 minutes south of the Base.

The cost of the program is **\$150 per Soldier**, which includes Gryphon Instructors, Range Safety Officers, M-4 Assault Rifle Zeroing Target, M-4 Assault Rifle 25 Meter ALT-C Target, all required 5.56 FMJ Ball ammunition, and all backside support.

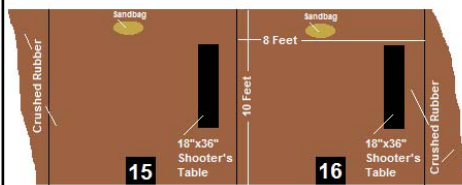

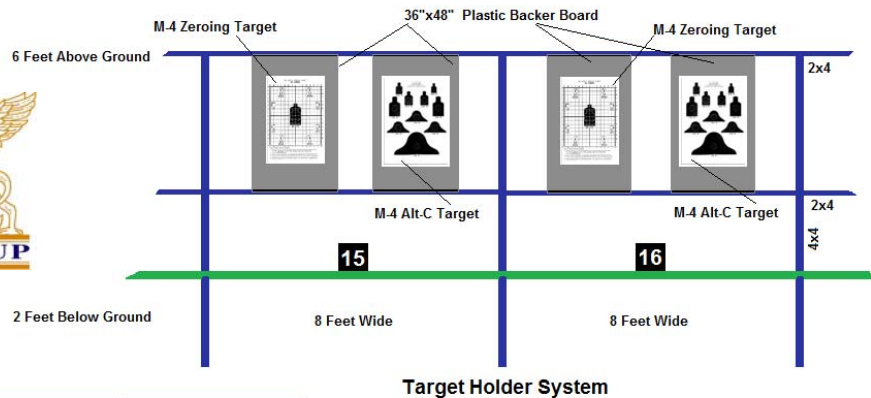

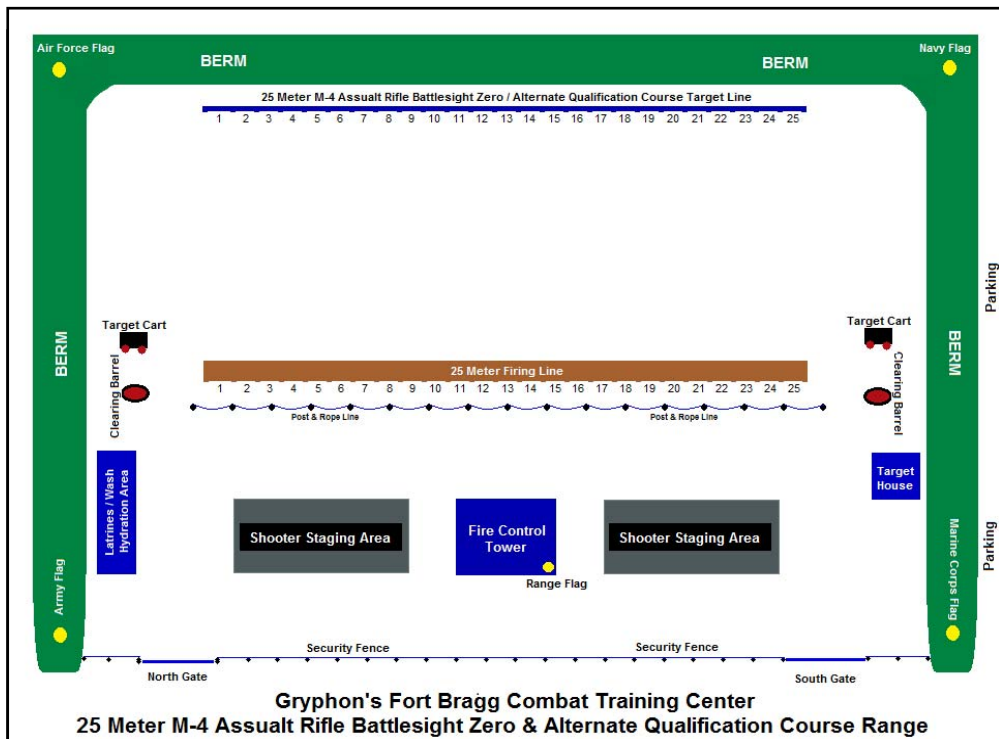

For the morning program (25 Pax max), participants will arrive at 0730 and will be complete by 1130. For the afternoon program (25 Pax max), participants will arrive at 1230 and will be complete by 1630.

The Senior NCOs/Officers present will coach their Soldiers during Zeroing process and then score ALT-C targets to verify qualification.

Call Pamela Lande, Vice President, at 321-242-9131 or landep@gryphonsecurity.com for more details and to reserve your seats.
